To Directors <directors@nwnwboard.org>

Jesus Christ, Eric, would you knock it off? The problems with GHFL's insane behavior predates my NWNW presidency (libel charges from Venture Portland over the Stadium District triggering the NWNW insurance, the way you guys would show up and start yelling at NWNW Board meetings, how NWNW staff had to stop attending GHFL meetings because of the way you guys harassed NWNW staff). And clearly they still continue long after I stopped attending NWNW meetings (your silly emails, the non-stop interference in another independent neighborhood association's business, the hostile work environment for NWNW staff). It's pretty damn obvious that YOU AND YOUR LITTLE GHFL BUDDIES ARE THE PROBLEM.

A year from now you will still be whining about that time I hurt your tender little feelings by pointing out how idiotic your behavior is. But let's be very clear: I have never attended a GHFL meeting or event, I have never harassed NWNW staff, and the only reason I am still around after announcing at last summer's NNO Party that I was quitting is because YOU GUYS led an illegal hostile takeover of our DNA meeting and elections.

You, Eric, are the problem. You and all of the GHFL ilk. No amount of stupid emails claiming libel will ever change your egregious pattern of stupid, rotten, and in several cases, illegal behavior.

Cheers,

Felicia
